## EVOLUTION

THE CONCEPT OF BEING LIFTED

Body UP Evolution is a special, multifunctional wheelchair lift offering  
**A NEW LIFT CONCEPT**  
for carers; helping them to safely lift and transfer those with lower body weakness  
in comfort and with dignity.

## Earn a Better Life!

Body UP Evolution provides a lift and transfer solution to all situations found in the home:

- \*Easy transfer to a car
- \*Lift and transfer from bed to move around the home
- \*Transfer safely to a conventional wheelchair
- \*Use in the bathroom in place of a commode or in shower
- \*Transfer to another chair or sofa

Made in EU

# Body Up Evolution

A life change for both the individual and their carer

# MAKE THAT CHANGE

## EVOLUTION

THE CONCEPT OF BEING LIFTED

Body UP Evolution is a special, multifunctional wheelchair lift offering

### A NEW LIFT CONCEPT

for carers; helping them to safely lift and transfer those with lower body weakness in comfort and with dignity.

## Earn a Better Life!

1. Respect - The way it operates provides personal dignity for the patient.
2. Its "green"— No more worries for batteries, charging batteries, etc.; It is **eco-friendly**!
3. No more barriers in one's daily life - The access to the shower or commode is easier than ever.  
Getting a patient to a car, van, etc. will expand the world that the patient can access
4. Money saver - BU takes the place of a "power lifter", commode/seat, a bath/shower seat, car/van access, versatile home/facility wheelchair and much, much more.
5. "Patient-friendly" design - BU's frame color and shape "rests" the eye and makes its presence very discreet when not in use.
6. Portable - When it is disconnected into two pieces, the user can enjoy BU's benefits elsewhere as well. True mobility for many patients who do not currently have that option is now possible.
7. Limited service needed - Body Up doesn't break; it won't require new batteries or circuit boards.  
Only a maintenance check every three months is suggested!
