about us

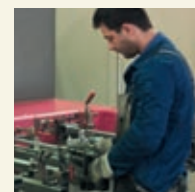

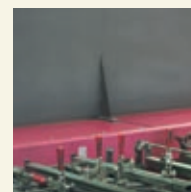

about us

the well known excellent quality of "müller betten" which were produced for decades are now produced from us with the same high standard. As "müller" we strictly respect the relevant standards (mpg, din). Permanent quality controls ensure a high standard in production. Our nursing beds are extremely durable. We offer a various range of products to our customers, which is likely to be unique in the German market. Production of nursing beds in our local production guarantees the supply of spare parts, professional advice and quick help, if necessary. Your specialists (for instance your care taker) will be trained intensively from our technical department.

"stable in value
very economic"
